Portfolio

Summary

Frontend Developer skilled in React.js, Next.js, and modern UI libraries, building scalable, high-performance, and user-focused web applications with UI/UX best practices.

Technical Skills

Languages and Frameworks: React.js, Next.js, JavaScript, TypeScript, Redux Toolkit, Context API

UI Libraries: Tailwind CSS, Material UI, Bootstrap, Daisy UI, Shadcn UI, Ant Design

Tools: Git, GitHub, Vercel, Netlify

Experience

Saylani Tech

July 2025 – Present

Frontend Intern

Onsite

- Built production-ready React.js apps with Shadcn UI and Tailwind CSS, including Saylani Moments a face-detecting gallery built exclusively for Saylani Welfare International that streamlined event photo delivery.
- Integrated AWS S3, DynamoDB and Lambda to optimize cloud functionality, reducing data retrieval time and boosting app performance.
- Currently building an AI SaaS platform frontend with Next.js and LinkedIn/X integrations for automated content creation and scheduling to enhance engagement and follower growth.

Plural Dynamics

May 2025 – July 2025

React.js Intern

Remote

- Worked on a Student Management System for a special children school using React.js, Material UI, and Ant Design.
- Collaborated with backend team to integrated backend APIs into frontend forms to ensure efficient CRUD operations.
- Enhanced and improved the overall UI/UX of the application.

Projects

Blogging App | React.js, Firebase, DaisyUI

Jul 2024 – Sep 2024

- Developed the frontend using React.js and DaisyUI for a responsive and visually appealing UI.
- Implemented user authentication with Firebase and managed data storage with Firestore.
- Utilized real-time data updates and conditional rendering for a smooth user experience.

Meme Maker App | Next.js, Tailwind CSS

Aug 2024 – Sep 2024

- Designed the UI using Next.js and Tailwind CSS for a modern, responsive design.
- Enhanced page load speed by 10% through Server-Side Rendering, optimizing performance.
- Integrated image download functionality with real-time previews.
- **Live:** [Link](#) **GitHub:** [Repository](#)

Weather App | React.js, OpenWeather API

Jan 2025

- Built a responsive React Weather App integrated with OpenWeather API for real-time forecasts.
- Integrated Geolocation API to auto-detect user location, reducing manual input and boosting engagement by 10%.
- noticeably enhanced load time by 5% using code-splitting and lazy loading.
- **Live:** [Link](#) **GitHub:** [Repository](#)

Education

Federal Urdu University of Arts, Science and Technology (In Progress)

2025 – Present

Bachelors in Computer Science

Karachi, Pakistan

Certifications

Saylani Mass IT Training (SMIT)

Jan 2025

Web and Mobile App Development Certification

Karachi, Pakistan
